

## Naturally Sweet Grape Juice

This juice is produced from premium Zinfandel and Syrah grapes from the Paso Robles appellation. The grapes are crushed, juice recovered, and chilled to a near-freezing temperature to avoid any fermentation. The juice is bottled just weeks after harvesting to keep the product as fresh as possible for your enjoyment. A slight effervescence from the cold temperature adds to the freshness. Sterile filtration and careful bottling eliminates the need for preservatives or pasteurization. A great thirst quencher for anyone, anytime. Serve chilled with your favorite meal or for a unique summer refreshment, mix with seltzer water, add a slice of lime and a couple of ice cubes!
